dong_liuqi@163.com ◊ [HOMEPAGE](#)

EDUCATION

City University of Hong Kong, Hong Kong SAR, China Aug 2022 - Present
Joint Ph.D., Data Science

Supervisor: Dr. Xiangyu Zhao [\[HOMEPAGE\]](#)
Lab: AML Lab [\[HOMEPAGE\]](#)
Affiliation: School of Data Science
GPA: 3.80/4.0

Xi'an Jiaotong University, Xi'an, China Mar 2021 - Present
Ph.D., Automation

Supervisor: Prof. Feng Tian [\[HOMEPAGE\]](#)
Lab: XJTU-MKFE [\[HOMEPAGE\]](#)
Affiliation: The Faculty of Electronic Information
GPA: 90.92/100

Xi'an Jiaotong University, Xi'an, China Sep 2019 - Jan 2021
M.Sc., Cyberspace Security

Supervisor: Prof. Feng Tian
GPA: 90.07/100 (Top 2)

Xi'an Jiaotong University, Xi'an, China Sep 2015 - Jun 2019
B.Eng., Automation

GPA: 85.9/100
Graduation Thesis: Analysis of motion sensor on mobile terminal and design of Wechat Mini Programme

RESEARCH INTERESTS

- **Recommendation:** Long-tail, Sequential, Debias, Multi-domain, Pre-training, LLMs
- **Large Language Model:** Medication Recommendation, Multi-task, Medical Applications
- **Causal Inference:** Treatment Effect Estimation
- **Data Mining for Applications:** Smart Education, Intelligent Healthcare

COMPETITIONS

- The **creative award** and 7th Place in TianChi CCKS2023-PromptCBLUE Competition (Common Channel) [\[CODE\]](#) [\[RANK\]](#) 2023
- The 3rd Place in YIDIANZIXUN Code Competition (CTR prediction channel). [\[CODE\]](#) [\[RANK\]](#) 2021

AWARDS

- Outstanding Graduate Award of XJTU 2023
- Graduate Student First-class Academic Scholarship 2023
- Creative Award in TianChi CCKS2023-PromptCBLUE Competition (Common Channel) 2023
- IJCAI Travel Grant Award 2023
- Outstanding Graduate Award of XJTU 2020
- Graduate Student First-class Academic Scholarship 2020
- XJTU Siyuan Scholarship 2017

INTERNSHIP

Tencent Jarvis Lab

May 2023 - Aug 2024

- **Leader:** Dr. Xian Wu
- Large Language Models for Medical Applications, Large Language Model Enhanced Recommendation

PROJECTS

LLM as Embedding Generator for SRS (with Tencent Jarvis Lab)

Jun 2024 - Aug 2024

- **Mentor:** Dr. Xian Wu
- We find that the long-tail problem in sequential recommendation is caused by the skewed distributed item embedding learned from collaborative interactions. We propose an LLM-based embedding generator, which consists of supervised contrastive fine-tuning and recommendation adaptation training.

- We conduct experiments on three real-world datasets combined with three popular sequential recommendation models. The results show that our method can outperform SOTA consistently, especially for long-tail items.
- **Outcome:** The paper is submitted to AAI'25.

LLMs Enhanced Sequential Recommendation (with Tencent Jarvis Lab)

Feb 2024 - May 2024

- **Mentor:** Dr. Xian Wu
- We propose an LLMs enhancement framework to alleviate the long-tail user and long-tail item challenges for the sequential recommendation. For the long-tail item challenge, we design the dual-view modeling framework to utilize the LLMs embedding. For the long-tail user challenge, we devise the retrieval augmented self-distillation.
- We conduct experiments on three real-world datasets combined with three popular sequential recommendation models. The results show that our method can outperform SOTA consistently.
- **Outcome:** The paper is submitted to NeurIPS'24.

Large Language Model for Medication Recommendation (with Tencent Jarvis Lab)

Nov 2023 - Jan 2024

- **Mentor:** Dr. Xian Wu
- We design an LLM-based (i.e., LLaMA-7b) medication recommendation model by proper prompt, classification head and SFT. We design a collaborative model and enhance it by distilling from the LLM-based model.
- We conduct experiments on the MIMIC-III and MIMIC-IV datasets based on LLaMA-7b. The results show that our method can outperform SOTA for single-visit and multi-visit patients.
- **Outcome:** The paper is submitted to KDD'25.

Multi-task LLM Fine-tuning for Medical Applications (with Tencent Jarvis Lab)

Jun 2023 - Oct 2023

- **Mentor:** Dr. Xian Wu
- We design a Multi-expert LoRA method to fine-tune large language model (e.g., ChatGLM, Baichuan) for multi-task medical applications.
- We conduct experiments on the PromptCBLUE dataset based on ChatGLM-6B. The results show that our method can outperform fine-tuning on single task or all tasks.
- **Outcome:** The creative award in Tianchi CCKS2023-PromptCBLUE competition. The paper "When MOE Meets LLMs: Parameter Efficient Fine-tuning for Multi-task Medical Applications" is accepted by SIGIR'24.

Diffusion Augmentation for Sequential Recommendation (with Huawei Noah's Ark)

Feb 2023 - Jun 2023

- **Mentor:** Fan Yan & Zhaocheng Du
- We design a Diffusion Model based augmentation method for sequential recommendation.
- We conduct comprehensive experiments on three datasets and three SRS backbones to illustrate the efficiency and flexibility of the method.
- **Outcome:** The paper "Diffusion Augmentation for Sequential Recommendation" is accepted by CIKM'23.

Medication Recommendation for Multi-center Hospital (with Tencent Jarvis Lab)

Aug 2022 - Nov 2022

- **Mentor:** Zhaopeng Qiu [\[HOMEPAGE\]](#)
- We constructed a contrastive pretrain model with prompt tuning for multi-center medication recommendation.
- We achieved SOTA performance compared with advanced medication recommendation models and multi-domain recommendation methods.
- **Outcome:** The paper "A Contrastive Pretrain Model with Prompt Tuning for Multi-center Medication Recommendation" is submitted to TOIS (Minor Revision).

Employment Recommendation for undergraduate (with XJTU Job Center)

2020 - 2021

- We collected five-year employment data of undergraduate in XJTU.

- We proposed a reciprocal-constrained employment recommendation model based on multi-task learning.
- **Outcome:** The model gives service to undergraduate in XJTU.

Micro-grid Load Prediction (with TEBA)

2019 - 2020

- We constructed a LSTM-based and Multi-source Data Fusion model for load prediction.
- We achieved 95% accuracy under 20%EP standard and the model is applied in real production environment.
- **Outcome:** I completed a patent draft.

TEACHING EXPERIENCE

- DataFunSummit 2024 Jun 2024
Invited Talk: A Survey on Multimodal Recommender System [\[POSTER\]](#)
- The 32nd International Joint Conference on Artificial Intelligence. (IJCAI'23) Aug 2023
Tutorial Speaker: Trustworthy Recommender Systems: Foundations and Frontiers [\[website\]](#)
- The 29th ACM SIGKDD Conference on Knowledge Discovery and Data Mining (KDD'23) Aug 2023
Tutorial Speaker: Trustworthy Recommender Systems: Foundations and Frontiers [\[website\]](#)
- The ACM Web Conference (WWW'23) May 2023
Tutorial Speaker: Trustworthy Recommender Systems [\[website\]](#)
- Hong Kong Institute for Data Science Mar 2023
Invited Talk: Pretrain Model for Multi-center Medication Recommendation [\[POSTER\]](#)
- National University of Defense Technology Jul 2021
Invited Talk: Intelligent Tutor System
- Xi'an Jiaotong Univeristy Feb 2020 - Jun 2020
Teaching Assistant: Big Data analytic and knowledge discovery

SERVICES

Journal Reviewer
